## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant's invention claims an electric power supply control apparatus. Which starts an interruption process upon detecting a voltage lower than a predetermined voltage, then detecting electric power supply voltage again and, in the case the predetermined voltage is recovered, the control circuit does not execute a self resetting, thereby a device control without executing a resetting operation in a situation where the electric power supply voltage is actually not lowered thereby not causing an erroneous operation of control means. None of the cited art discloses overcome the claim limitation of the instant application since claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
